

CPD

“ I would recommend Eddie to any educators seeking to develop their teaching methodology with the confidence that they will receive instruction from a highly professional individual with a depth and breadth of technical and educational expertise.”

Stephen Stott,
Education Program Manager
Autodesk Inc.,
Europe, Middle East & Africa

“ You delivered the best inset experience I have ever received in twenty five years of teaching. Your video tutorials are superb, thanks. We will definitely be subscribing to your website.”

Steve Mylchreest,
Head of Design & Tech.
Perth Academy

COURSE CONTENT

Controlling Motion

rotary & linear, driven constraints, contact solver

In-depth Assembly Exercises

using a range of constraints, ready to use in class

Customising Materials

ever wanted purple chrome, rotated wood grains ?

The Split Tool

one model, two perfectly matching halves

Quick and Easy Sections

produce sections of your assemblies for no effort

Lofting With Rails

control the profile of lofted parts using sketches

Lighting Styles

applying and manipulating lighting styles

A look at resources ‘out there’

INTERMEDIATE LEVEL INVENTOR

Developing your practice in Autodesk Inventor in addition to an insight into effective teaching strategies.

Date : Thursday, 8 Dec. 2011

Time : 9.30 – 3.30pm

Venue : Newton Mearns

Numbers : Maximum 14

Cost : £120 per person

Inc. tea/coffee & lunch

This one day course is aimed at Design & Technology teachers in High Schools who have taken their initial steps with Autodesk Inventor and are looking to build up their confidence and understanding.

The cost includes teaching material used in the delivery of the course on the day which can be used for future learning and teaching in the centre. All courses are recorded live and provided in the form of video tutorial material to participants.

Following a tried and tested workflow, the course will not only introduce you to the concepts in a sensitive manner but it will at the same time demonstrate a teaching strategy which will transfer well to the classroom.

Course Tutor, **Eddie Mack**, has over fifteen years experience teaching Design & Technology in both Secondary and Higher Education and will ensure you feel supported.

Participants can be assured of feeling they made the best use of their valuable CPD time during the course and also in the vital weeks afterwards, when they are able to play back the day's sessions while consolidating their learning.

VENUE

The session will take place in **Parklands Country Club**, Newton Mearns. Parklands is just two minutes from J4 of the M77, just outside Glasgow.
